

UC RIVERSIDE - Faculty Instruction Evaluation (iEval)
Summer Session B 2022

Course: ECON 143 Section: B01 - ENVIRONMENTAL
ECONOMICS

Instructor: Da Gong

Question # 19: Please comment on how the instructor's teaching helped your learning of the material in this course. Please give serious thought to your comments. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used in changing future offerings of the course. In addition, these comments are placed in the instructor's file and may be used for purposes of evaluating the instructor's teaching. The information collected will remain anonymous.

- For this to be his first time teaching, I think he's done a fantastic job. A few things though, in terms of class material, I think the instructor has put in a little too much for a class that is only for 5 weeks. I understand that all of the material that he covered in class is important, but that amount of content just can't fit in a summer session. Also, it would be nice if in the future, Da Gong wishes to continue to teach either here or anywhere else that uses elearn, it would be nice if he could put the lecture videos or anything that is considered class materials onto the Modules section of elearn and not the Announcements section. Overall, Da Gong is doing great and I hope he keeps up the good work!
- Cares about the success of students and makes the learning material easy to comprehend. Keep up the good work and goodluck in your studies!
- Making the recordings available to all students would help with reviewing notes after class. The powerpoint annotations were not enough to explain a topic if it was difficult to understand.
